

# Option 1: “The Do It Yourself”

## School administered rapid testing

### LDH provides the Point-of-Care Molecular Testing

- ❖ All materials and training provided by LDH to **School COVID-19 Testing Coordinator**: *CUE test kits, the readers, technology necessary*
- ❖ Specimen collected through an observed self-collected anterior nasal swab
- ❖ PRO-symptomatic students who test and are negative may stay in school
- ❖ School staff uses Color to send registration and consent materials to parents
- ❖ School staff administers participant check-in, sample collection, testing, and recording results
- ❖ Results available in 15 - 20 minutes
- ❖ Results sent to guardians through text or email
- ❖ Goal is to test 20% of school community on a weekly basis
- ❖ LDH to provide \$30k for each school that participates
